

Worldwide Distributor of Horticultural Products

March 11, 2010

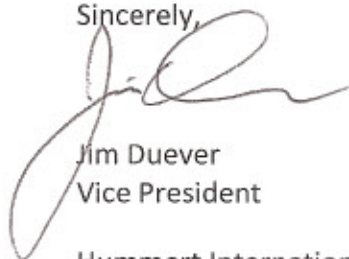

A+ Wiring Solutions,

I wish to personally thank you for the professionalism we experienced with our surveillance system install. From the beginning, Alan gave us all of the attention we requested. We did not know anything about the systems available, so he took the time to bring in a manufacturer representative to explain how everything works.

Alan personally installed the system and obtained all of the inspections and permits. He even made suggestions to bring our warehouses up to the current building codes. When our recorder quit working due to a factory defect, Alan went the extra mile to get it replaced under warranty and installed it at no charge to our company.

I am completely satisfied with A+ Wiring Solutions and would strongly recommend them. I will be inviting Alan to attend our buying Expo so he can show his systems to our customers.

Sincerely,

Jim Duever
